SUMMARY

Motivated B.Sc. Computer Science student with strong skills in HTML, CSS, and JavaScript. Experienced in building responsive web applications and real-time projects. Eager to apply and enhance technical skills through an internship opportunity.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript

Programming: Basics of Python, Java, C++

Tools & Libraries: Git, GitHub, Chart.js, VS Code, MS Excel, PowerPoint

Database: MongoDB

AI Tools: ChatGPT, Claude, Blackbox

PROJECTS

Attendance Management System — Tech: *HTML, CSS, JavaScript, Chart.js*

- Built a web-based system to manage student attendance efficiently
- Integrated Chart.js to visualize attendance data (graphs & reports)
- Improved tracking accuracy and reduced manual work
- Reduced manual attendance tracking effort by automating data management

Personal Portfolio Website — Tech: *HTML, CSS, JavaScript*

- Designed a responsive portfolio website to showcase projects
- Implemented smooth scrolling and mobile-friendly UI
- Optimized performance for faster loading

EDUCATION

B.Sc. Computer Science

Expected Graduation: 2027

St. Joseph's College (Autonomous), Tiruchirappalli

CERTIFICATIONS

Introduction to Python – Infosys Springboard

September 2024

- **Skills:** Python Basics, Programming

JavaScript Bootcamp – Lets Upgrade

October 2025

- **Skills:** JavaScript, DOM, Web Development

Data Analytics Job Simulation – Deloitte

January 2026

- **Skills:** Data Analysis, Forensic Technology

ACHIEVEMENTS

- completed Deloitte data analytics simulation with real-world case study
- built and deployed multiple responsive web applications

STRENGTHS

- Teamwork
- Communication
- Problem-solving mindset

LANGUAGES

- English
- Tamil
